TIME

How to change the terminal time zone setting.
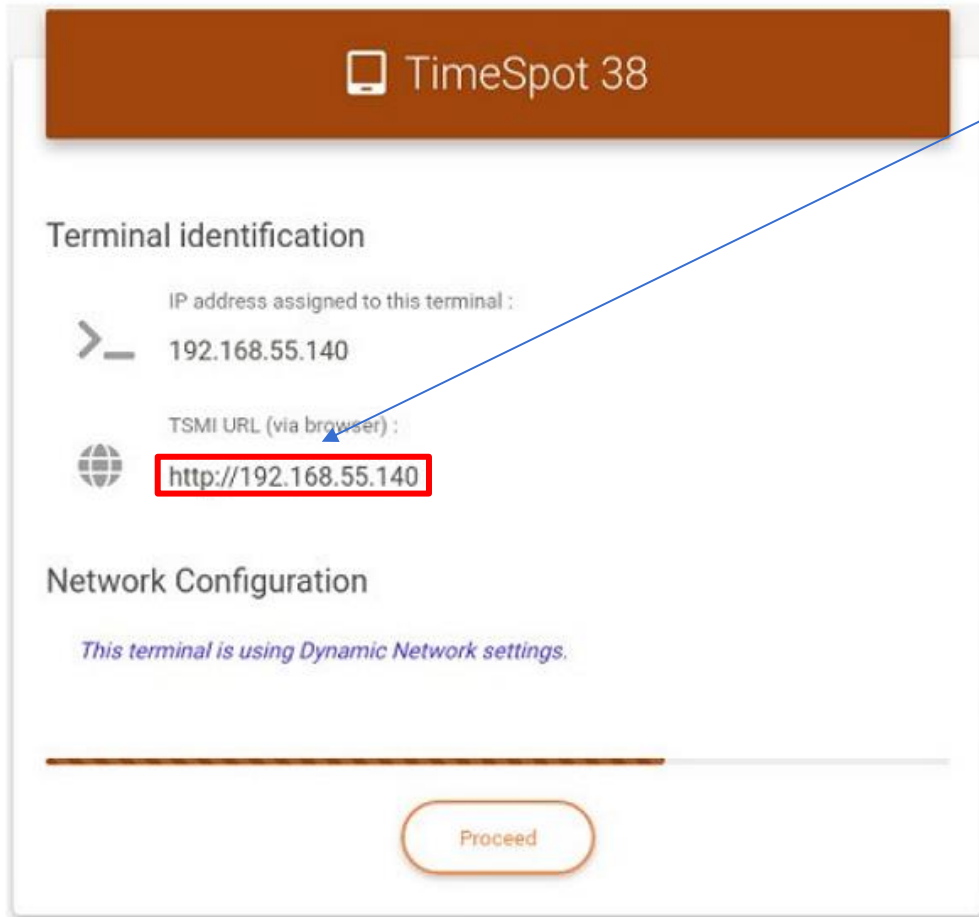

TS3807 7" terminal

1. Restart the terminal by unplugging the power supply from the grid and then re-connect it to the grid again.

   After approx. 10 seconds the terminal will appear as in Screen shot a)

Please wait.
The terminal is starting.....

🅣 TimeSpot®

Screen shot a)

2 After an additional approx. 15 seconds a new screen will appear as shown in screen shot b)

Make a note of the IP address that's shown on **your** terminal screen.

Screen shot b)

3 Now connect a computer to the same network as the terminal is connected to.

4 Then open a web-browser and in the address bar type the IP address of the terminal (see point 2 above).

Type in **/tsmi/** after the IP address and click Enter.

Screen shot c) will now appear.

To log in, use **admin** as the Username and **admin** as the Password.

Screen shot c)

5 In the left-hand side Menu, click on the button "Timezone"

Using the dropdown menu select your Timezone.

Then press **Save**.

Now the terminal will restart and the new time zone will be activated.
