## Features

- Ensuring a fast On Screen web experience the TimeSpot® 38 uses a powerful Quad core Cortex A53 64bit ARM CPU.

- Memory of 2GB DDR3 RAM & 8GB eMMC Flash.

- Advanced 15" Colour Touch Screen TFT for clear navigation including extended angle reading.

- Accurate and fast capacitive touch screen sensitivity.

- Real time on board data storage. Secure from power loss

- Multiple ID options on request RFID, barcode, smartcard, biometric.

- Simple and fast.

- Optional self standing pole-mount allowing for location flexibility.

- Linux license-free OS with highest security level in kiosk mode, using non-writable filesystem.No auto updating.

- Lifetime Linux firmware support & updates subject to support agreement.

- Fail safe off-line storage.

- Made from sustainable eco friendly materials. Zero use of ABS plastic casing

- Extended Administrator dashboard (2019).

- Operational cold and heat resistant from 0 to 40℃.

- Low power 12V DC (eco-setting option 2019)

- Optional integrated Sobriety/alcohol tester

- Optional Time & Attendance software

Benefits

- Why be locked you into any one solution. With TimeSpot38 you have the freedom to choose any web WFM, HRM or payroll application.

- Choose one or multiple Terminal sizes to fit your business environment; whether industry, logistics, retail, healthcare, hospitality, public service or government.

- Large screen size providing WFM solutions with maximum real estate for easy to use functionality

- Our Linux platform terminals are designed, manufactured and calibrated in Sweden – home to some of the world's most innovative ideas and solutions

- With a focus on using sustainable materials, we do NOT use ABS plastic casing

- Benefit from the use of capacitive or resistive screen making it simple for users to navigate on-screen menus

- Modern, yet built to best-in-breed robust standards for long term use 24 / 7 / 365

- Choose your most appropriate web communication. 4G, Wifi or ethernet. In future via 5G.

- Designed to be off-the-shelf or logo customisable to promote your brand.

- Whatever level of employee identification fits your business needs – whether code, fob, swipe, proximity card or biometric. We can integrate them for you.

- With 24/7 logistics from Sweden to anywhere in Europe, your deliveries will be short and trackable. No long waiting times.

- If you use web enabled Workforce management, HRM or payroll software – we make it look and work for you even better.

What's inside

- **OS:** Linux
- **CPU:** Quad Core Cortex™ A53 1.5GHz 64bit ARMv8 processor
- **GPU:** Mali™ 450
- **RAM:** 2 GB DDR3
- **Flash:** 8 GB eMMc
- **LAN:** 10/100/1000Mbps
- **Comm:** HTTP/HTTPS
- **USB:** 2.0 x 1
- **Power** 12V DC
- **Dimensions:** W 335mm x H 370mm x D 62mm
- **Casing:** Lacquered sheet aluminum
- **Protection:** Klass IP54
- **Screenv:** Color TFT capacitively or optionally resistant reinforced touch screen glass
- **Adjustable:** Color, contrast,
- **Resolution:** 1024 x 768
- **Buffer:** Support för offline lagring

Options

- RFID Fob, Proximity or Swipe cards using EM, Mifare or Legic & HID coming soon.
- Fingerprint recognition
- Facial recognition
- WLAN 802.11ac/a/b/g/n and MIMO antenna technique.
- PoE
- GSM GPRS quad band 850/900/1800/1900 MHz LTE
- USB HID for RFID and barcode scanners
- Speaker + Audio for alarm or siren
- Speaker + Audio for enrollment instructions & confirmation.
- Camera (Profile registration ID)
